

## Demon Hunter

The game is a program with five reels and 243 ways to win, in which the computer simulation of the traditional engine powered reels realised. The purpose of the game is to sort out as many as possible similar symbols on the winning lines.

## Playing the game

At the beginning of the game we can set the value of the bet with the BET button. The value of the bet is deducted from the CREDIT after pressing the START button, the five reels starts to rotate and within a short time they will stop one by one. By pressing the HOLD button any reel can be stopped. If there was a winning combination, then its value appears in the WIN field, with the START button it goes to the CREDIT field or with the BET button to the doubling game. The WILD (Demon Hunter) symbol replaces any, except the SCATTER, but alone it has a prize. On the given line always the bigger prize is valid.

# Free spin

The SCATTER symbol counts on the whole game field, not just only on the active lines. If three or more SCATTER symbols occur, above the prize, open the door of Temple of Spins, and the player can pick one from the four different kind of free spin games. During the free spins, more free spin reward is possible.
